Kermi EXTRA	24

The all-rounder

LIGA

The shower enclosure for all bathrooms

Whether using a folding-hinged door, hinged door, pivot door or sliding door – LIGA offers an optimal solution for every shower space.

With its design and its space-saving solutions, the series offers a special sense of freedom.

The all-rounder

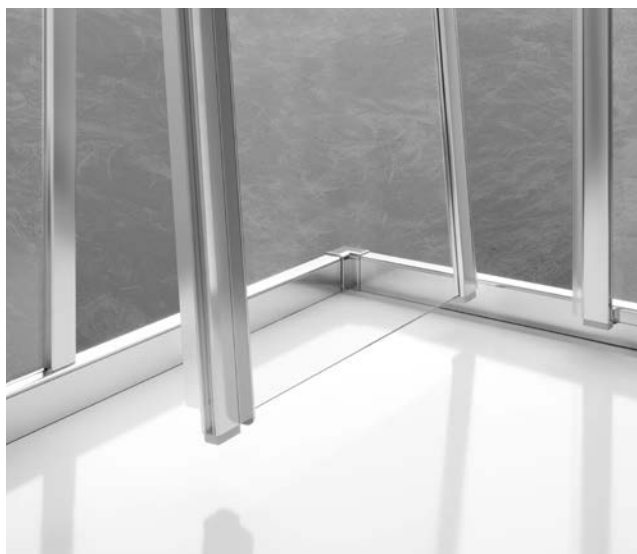

LIGA sliding door

Sizably watertight

Modern, linear profile design for all who like more watertightness.

The new 2 and 3-part LIGA sliding doors. Available as tall 2 m standard height, with water-repellant 42 mm floor profile.

Uniquely insensitive and easy to clean with the hookless sliding door panels with no horizontal profile with magnetic guide rail and the completely smooth floor profile on the inside.

The all-rounder

LIGA hinged door with folding mechanism U-shape

From small to large

The shower solution for a small bathroom, ideal for renovations and supported living for example:

The new LIGA U-shaped hinged door with folding mechanism offers 90 x 90 cm fold away shower pleasure.

Directly in front of a window, next to the cladding, or simply in the centre of the room.

The all-rounder

WALK-IN XB

The elegant variable

The walk-in glass unit that always fits: WALK-IN XB in 8 mm thick, single panel safety glass.

Reliably held in place with geometric or round wall stabilisation. Also discretely divided as standard so that it can find its way into every bathroom.

Or it can be used individually with variable wall and ceiling support.

PEGA

The perfect middle class

PEGA

The charming beauty

The PEGA folding and sliding door range with its award-winning design is impressive with its exclusive technical and optical features and a unique price-performance ratio.

And the two part hinged door with its strip seal closes every walk-in shower as standard.

The perfect middle class

Raya

The slimline one with a glossy appearance

RAYA always remains equally slimline.

With its invisible 20 mm width adjustment behind exquisite chrome-plated applications.

NICA

NICA

The quintessential sliding door

The award-winning sliding door with reliable soft-open and soft-close comfort will impress you in all its variants with its space-saving lightness.

The design highlights

TUSCA

The sensuous agile one

TUSCA is impressive. With its sensuous, agile design and the timeless elegance of its lines. With its wide range of variants and adaptability.

You always have the choice between a horizontal or a vertical comfort handle or even a minimalist version of the handle.

And best of all: TUSCA avoids any complicated fittings technology.

NICA

Finishes

Black, white and more

If the colour sets the tone in your bathroom, then you have the perfect choice at Kermi.

Whether sophisticated soft black, cool white, stylish metallic coating, warm, earthy ethnic tones, fresh, natural colours... – You set the tone.

PEGA

Glass patterns

Privacy screen and more

Completely new in addition to 18 other attractive sand-blasted Kermi glass patterns:

Stripe 3, across the whole surface tapered gently across top third.

Stripe 4, centred at a height of 1.20 m tapered gently to both sides.

PASA

Film applied

Across part or across the whole surface

Direct connection, e.g. a stud wall installation to a fixed glass panel (e.g. WALK-IN) by applying film to the glass.

Film can be coloured black or white (opaque).

Special solutions

Individual bathrooms – individual solutions

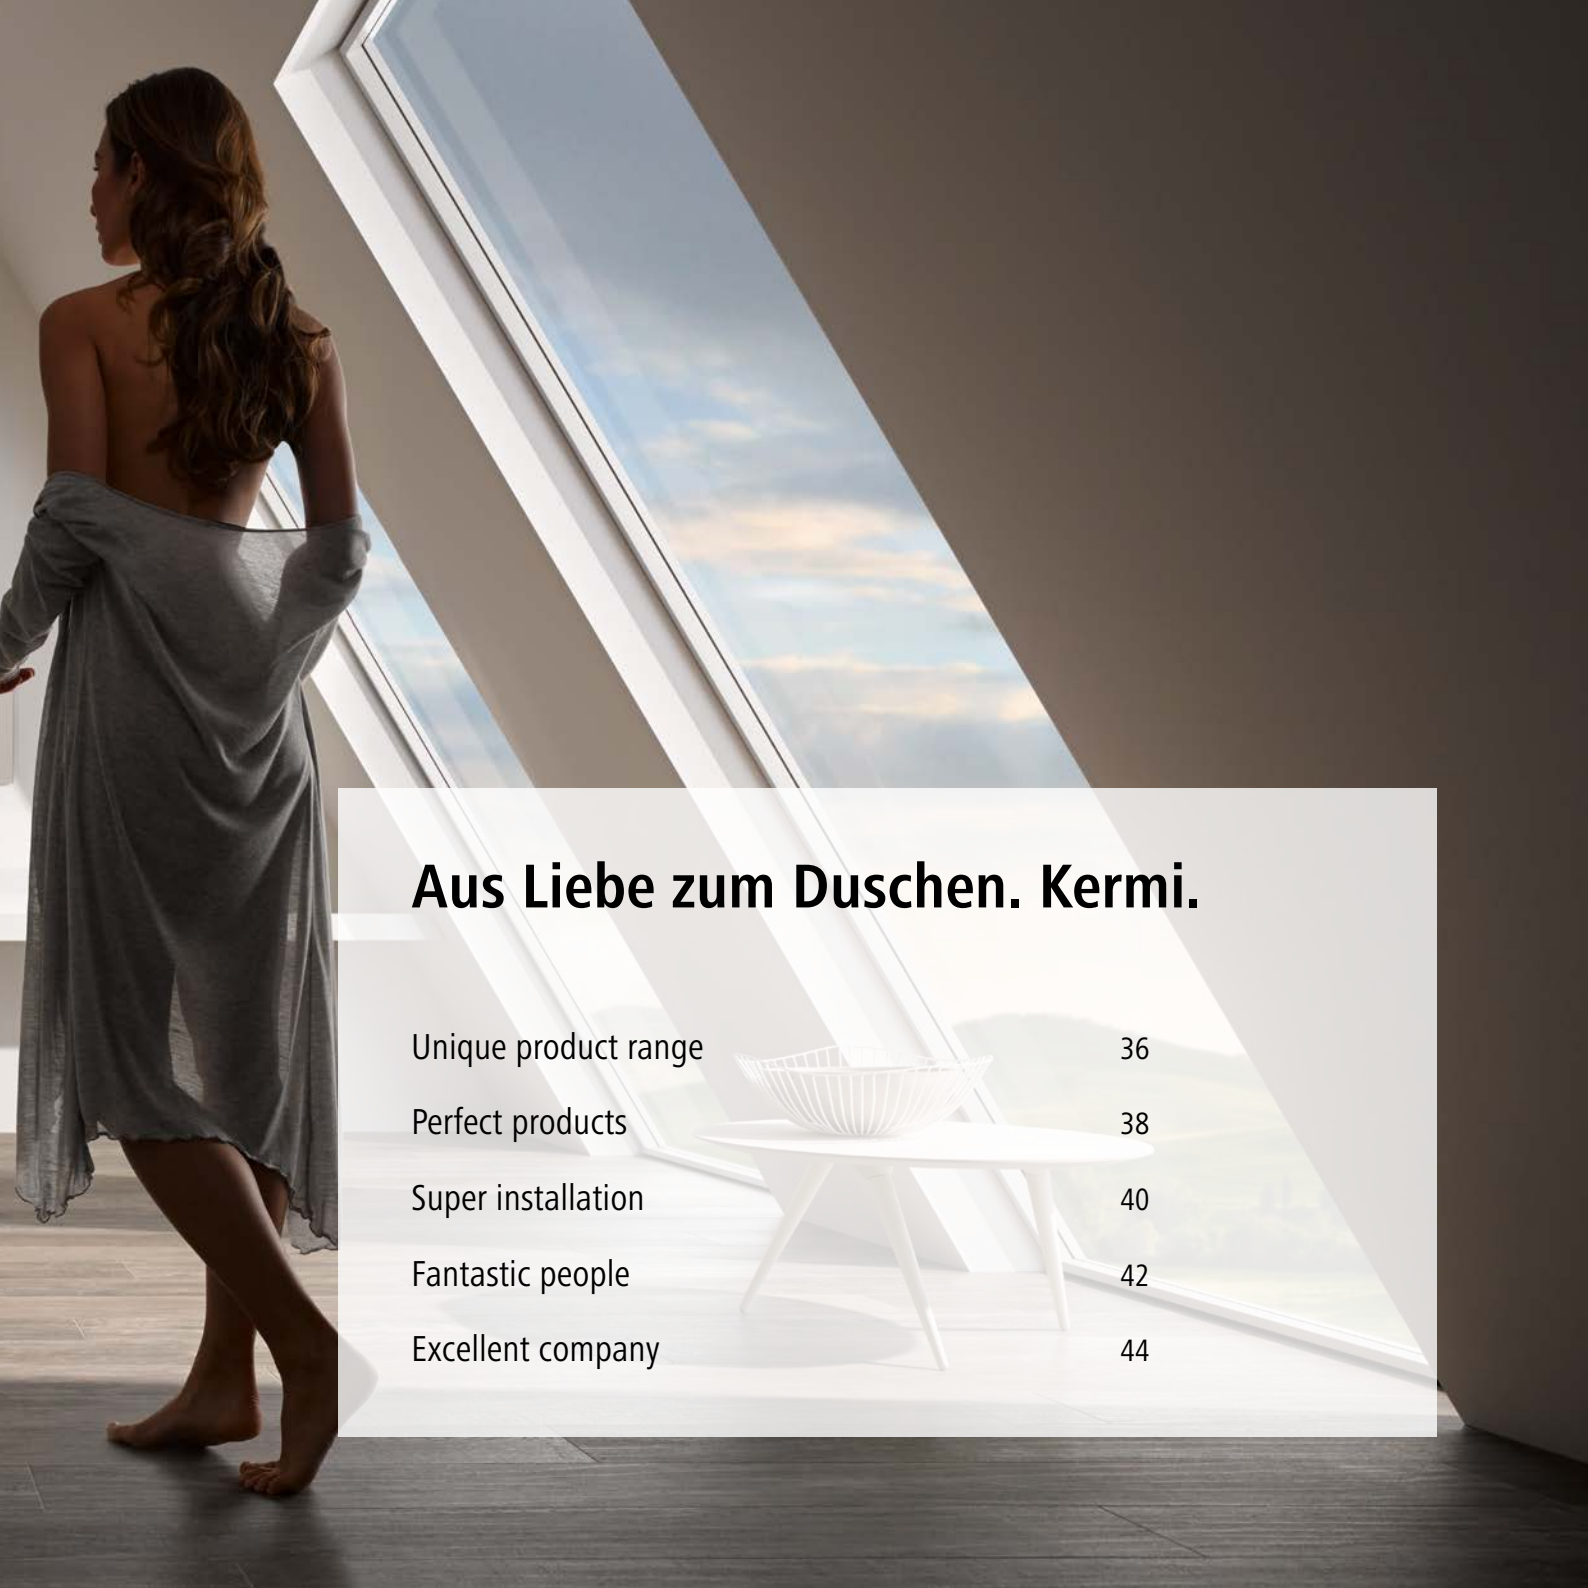

Pure glass – e.g. WALK-IN XC in 10 mm single panel safety glass combined with a TUSCA custom-made design for installation of glass flush to edge.

Cladding and sliding door – e.g. LIGA sliding door with continuous top and, if applicable, bottom guide rail and a fixed panel with, or partially without glass.

LIGA

Aus Liebe zum Duschen. Kermi.

Kermi Technology

Kermi products are products that a specialist fitter enjoys working with:

They are securely packaged, comprehensively pre-assembled, and are quick and easy to install.

All the information required can be found in the installation instructions, the ID code on the shower enclosure, and in the cleaning and maintenance instructions.

Kermi employees

Whether with many years of experience or with fresh new dedication – every “Kermian” embodies the same passion for showering.

At Kermi, service, flexibility, reliability, and uncomplicated processes are part of everyday living – to the pleasure of our customers.

The Company Kermi

Kermi was founded in 1960. Since manufacturing the first shower enclosure in 1976, there are well over 10 million shower enclosures in bathrooms across Europe.

30 different series are being produced today in Plattling, Lower Bavaria. With complete dedication to quality, ecology, energy efficiency, and safety.

IF NOT
